

28th November 2012

Mr John Feil
Executive Director
National Competition Council
GPO Box 250
Melbourne VIC 3001

Dear Mr Feil

Application for Coverage of the South Eastern Pipeline System (SEPS)

Please find attached an application for coverage of the South Eastern Pipeline System – a natural gas transmission pipeline owned and operated by Epic Energy.

We have attached two copies of the application – one version for the NCC which contains confidential information and one version for public release which has the confidential information redacted. We have highlighted the sections of the NCC version which show the redacted information in the public version.

The application is self-explanatory but we do recognise that Epic Energy has advice on its website regarding access to this pipeline system. Whilst the prices quoted in the application are from information provided by Epic and from our own knowledge, we note that Epic is making available prices for access which are different to those included in our application.

The open access information provided by Epic is available at:

http://www.epicenergy.com.au/media/docs/SEPS_Key_Commercial_Terms.pdf

Attached is a cheque payable to the National Competition Council for \$7,500 which is the fee for making an application for coverage.

Should you have any questions or require more clarification regarding this application please contact the undersigned. Once you have had the opportunity to review this application, I would like the opportunity to discuss the application with you so that I can provide more information about our reasons for making the application and to become clearer on the subsequent processes of your review.

Yours sincerely

Darren Williams
Operations Support Manager
